

# Stowe Cemetery, Montgomery County, Texas

Stowe Cemetery has been totally desecrated - Key Map Page 191W

Take FM 1485 from Hwy 105 traveling towards Grangerland. About 2 miles before Grangerland and in the vicinity of the Freeman Cemetery, on the left hand side turn to the left on Linda Lane. Linda Lane forks after about ½ mile. Bear to the right on Denise St. Denise Street curves to the left and curves to the left again in about 2 city blocks. About ½ way between these two curves on the left are the remains of the Stowe Cemetery. The land is between two nice homes in a wooded area. There are remains of a cyclone fence which is overgrown and almost totally covered in vines. It appears a pit was dug and used as a garbage dump at the front of what was once the cemetery. If you follow along the 2<sup>nd</sup> house's cleared property next to the overgrown woods near the back where their barn is located you go left into the woods. I found only two headstones. I was unable to read the one still standing upright and I could not lift the other stone to see if it was readable. Jane Keppler, relppek91@gmail.com, 28 Oct 2004
